The Review discusses those topics which are uppermost in the minds of students of the Far East' and about which every intelligent person connected with Chins or Japan is desirous of acquiring trustworthy information. It includes many interesting Notes and original Papers on the Arts, Sciences, Ethnology, Folklore, Geography, History, Literature, Mythology, Natural History, Antiquities, and Social Manners and Customs, etc., etc., of China, Japan, Mongolia, Tibet, and the Far East generally. 'The November-December number of the China Review contains less variety than usual, but the few articles are very interesting. The opening paper by Mr Herbert A.
